# How can you use The Learning Hub?

There are many ways to use Learning Hub resources in your learning community, but here are just a few

## Flip your classroom

## Develop new skills

### You'll find:

- Self-paced, auto-assessed courses
- Quizzes and exercises
- Podcasts and webinars
- Downloadable videos to watch offline
- Incentivised badges to learn more

### For learners:

- Improve your presentation skills
- Improve your time management
- Plant a micro-forest on campus

### For educators:

- Facilitate adult learning
- Create an inclusive, pluralistic classroom

And many more!

### The Learning Hub helps educators to:

- Use real-world examples from across the world
- Illustrate the interconnectedness of the SDGs
- Show how climate change is already affecting people around the world

## Embedding sustainability into learning

"How might we build learning experiences through the lens of sustainable development?"

### You can help your learners:

- Learn about sustainability themes through art
- Develop Sustainability Key Competences like systems thinking and integrated problem solving
- Learn more about Global Citizenship (SDG 4) and use our resources to bring it into your learning environment

## → We want to hear from you!

Have you used a course from The Learning Hub to flip your classroom? A video in your staff workshop? A toolkit in your community project?

**Tell us!** Your stories can inspire others and help us to amplify your work.
